

INTERNATIONAL ASSOCIATION OF  
**NEUROSCIENCE**

**Echnoarete**<sup>®</sup>Group  
Integrating Researchers to Incubate Innovation

INTERNATIONAL ASSOCIATION OF  
**NEUROSCIENCE**

# ABOUT

- International Association of Neuroscience (IAN) is one of the leading non profitable professional association meant for research and development in the field of Neuroscience, Neurology & Surgery.
- IAN serves as an excellent international forum for Doctors, Practitioners, Researchers, and Academicians for sharing knowledge and innovation in Neuroscience, Neurology, Surgery& its advances.
- IAN devoted to advance and promote information in the field of neurosciences and related disciplines by means of lectures, discussions, meetings and reports from time to time.

- IAN committed to promote highest ethical and professional standards of neuroscience and aims to bring together worldwide researchers and professionals, encourage intellectual development and provide opportunities for networking and collaboration.
- IAN has good amalgamation of eminent neuroscience professionals and clinical researchers and actively associated in managing several academic programmes.
- IAN meets with its objectives through academic networking, meetings, conferences, projects, research publications, academic awards and scholarships. IAN enrich from its diverse group of advisory members.

# OUR SERVICES

IAN provides access to information for advancing careers, skills, and innovation in Neuroanatomy, Neurobiology, Neurophysiology, Neurophysics, Neurochemistry, Neuropathology and clinical disciplines like Neurology and Neurosurgery along with Bioengineering and Mathematical modelling of the brain by organizing International Conferences and global standard scientific events.

**International Conferences & Scientific Events**

**International workshops to inspire young Neuroscientist and different healthcare disciplines across the globe**

**Membership (Institutional/Professional/Student)**

**Faculty Exchange Programme**

**Journals/Publications in (SCOPUS/SCI/ESCI/UGC/Web of Science etc)**

**R&D Assistance- Technical advice to researchers and academicians with a vast network of international experts from Multidisciplinary Neurosciences& Technology.**

**Establishing Chapters (Professional/Student)**

**Seminars/Guest Lectures**

## OBJECTIVE OF IAN

The major objective of IAN is to offer quality education and resources to the professionals from neuroscience background and to create awareness on the progress of various facets of brain research.

- ☆ To collaborate with Universities/Institutions to identify researchers and innovators in different disciplines of neurosciences at grass root level and to bring them at a global platform
- ☆ To promote professional development opportunities on the subjects relevant to the growth of Neuroanatomy, Neurophysiology, Neurobiology, Neurophysics, Neurochemistry, Neuropathology and Bioengineering.
- ☆ To organize training programs and conferences with an aim to bring students and researchers under one umbrella so their ideas can be synergized and enable them to become future leaders of the profession.
- ☆ To promote leadership among members while abiding the highest professional and ethical standards.
- ☆ To establish, maintain and expand national & worldwide network of professionals from clinical disciplines like Neurology and Neurosurgery along with Bioengineering and Mathematical modelling and computational research.

## OUR VISION

**Inspiring excellence through innovative training programs and strategic professional relationships.**

**Advancing scientific knowledge across the spectrum of neuroscience, exciting progress on a wide variety of issues, practice-based and translational research with significant focus on collaborative partnerships.**

**Capitalizing on our spirit to improve pharmaceutical research, practice, and education worldwide.**

## OUR MISSION

**To uphold our social responsibilities of delivering highest standard training, research and development to all branches of neurological and neurosurgical nursing without compromising on our core values of integrity, good ethics and commitment.**

**IAN strives to become an expert in organizing conferences, summits, seminars and workshops with resourceful and nonpareil speakers throughout the world.**

**To promote and encourage neurological research and association by assuring high quality standards through excellence in technology based on world-class research and development.**

# OUR VALUES

- \* IAN recognizes the importance of ethical behaviour and integrity and will guide the future for better development by ensuring the principles of integrity, continuous learning, innovation and leadership.
- \* The core values of IAN are Innovation, Ensure Quality, Research & Development, Continuous Improvement, Ambition to succeed, Collaboration and Teamwork.

## SCOPES AND OPPORTUNITIES

Connecting with Experts and Scholars from Multi-Disciplinary Neuroscience professionals, Clinicians and other Medical Practitioners

Organizes international conferences, training programmes, seminars, symposia and workshops, updates on latest technology on various facets of Neurological Research

Global platform to convey recent developments with the goal of pursuing research towards understanding the structure, function and development of the brain in health and disease

Access to senior-level executives and tremendous networking opportunities to meet leading international Neuroscientist

Platform to engage in exciting event format and multiple conference tracks. Share experiences, insights and strategies in interactive peer to peer round tables

To learn innovative methods employed for development and processing in neurological research such as molecular, cellular, systems, behavioural and computational approaches

Provide access to the latest national and international updates in a crisp, defined format in neuroscience that lie at the interface of clinical research, engineering and other areas of biology

Serve as an Information Transfer platform and Neuroscience Education of vastly updated, relevant material to a broad audience

Publication of research work that contributes significantly to further the scientific knowledge in Neuroscience, Neurology and Neuro surgery in SCI/ESCI/SCOPUS/WoS/UGC/Google Scholar Indexed Journals

Awards for best paper and poster presentations

**12883+**  
Members

**2148+**  
Scientific  
presentations

**1953+**  
Publications

**63+**  
International  
Conferences

**182+**  
Guest Lectures  
& keynotes

**27+**  
MoU's

## MEMBERSHIP

IAN is one of the largest associations with more than **12,883+** members including clinicians, academic researchers, neurologist, neuroscientists, research scholars, clinicians and related medical professionals interested in advancing the profession. It serves as an excellent resource with the latest happenings and breakthroughs committed to the development of mind and brain research aimed at investigating the psychological, computational, and neuroscientific bases of cognition through seminars, conferences, workshops and publications.

### MEMBERSHIP BENEFITS

- ★ Membership of IAN brings a wealth of resources. Global trends and advances, best practices, the evidence, support for advocacy and strategic activities and a vast global network
- ★ IAN membership connects you to a multidisciplinary global network of thousands of students, post docs, and neuroscience faculty from around the world.
- ★ Can be a Keynote Speaker, Session Chair / Chairperson & Organizing Committee member of the Conference organized by IAN.
- ★ Can be an Editorial Board member, Reviewer, Advisory Committee member of IAN to maintain the quality control of research.
- ★ Can be a Visiting Professor to the Universities collaborated by IAN and receive the designations such as Honorary Fellow of IAN, Fellow of IAN, etc.
- ★ Sessions during the annual conference of Neuroscience & Neurology and webinars highlighting new activities and roles for research focused on elucidating the biological underpinnings of processes and development.
- ★ Discounts on registration fees for the Conferences & events organized by IAN.
- ★ Can publish your research and investigation results in SCI/ESCI/SCOPUS Indexed Journals or present them at IAN Meetings.
- ★ Recognition opportunities and Awards for the best research paper and best poster presentation

## ABOUT CHAPTERS

- \* IAN fosters growth in the Neuroscience, Neurology and Research community through its 157+ student chapters worldwide. Chapter members reflect all facets of Neuroscience from Academia & Research to Neuroanatomy, Neurophysics, neurophysiology, Neurochemistry, Neurobiology and Neuropathology.
- \* Regardless of size or location and category of membership, every IAN chapter offers its members a wealth of benefits, including access to research opportunities and to establish a personal networking system in the region.
- \* IAN supports the chapter members to make their research worth for availing benefits.
- \* With extensive partnerships and neurosciences network, IAN work to support the development of clinical disciplines like Neurology, Neurosurgery and Psychiatry along with Bioengineering and Mathematical modelling through practice and emerging scientific innovations.
- \* IAN continue to expand its presence in Neurology & Neuroscience and influence through partnerships with some of the world's leading health, policymaking, education and science institutions.
- \* IAN's local chapters around the world host Guest lectures, conduct workshops by internationally known Neuro-professionals.
- \* Participation in all these chapters provides a unique combination of social interaction and professional networking among peers in their respective geographic areas.

## CONFERENCES AND EVENTS

- \* IAN collaborates with Universities, Organizations and other Associations for organizing conferences, scientific events, publications, professional meetings and workshops on advances for an effective interdisciplinary research of highest standards in neurosciences
- \* IAN have started its dedicated journey by organizing global standard events and International Conferences in different Institutions, Universities & conventions
- \* The conference will provide ideal forum to stimulate ideas and establish collaborations, as well as to launch intense discussions to secure collaborative projects and to present a highly interactive, stimulating and multidisciplinary program comprising of highly engaging workshops, plenary sessions and edifying round tables
- \* IAN Conferences and Events bring together people who share a common discipline from different parts of the world, bringing different forms of ideas which build into something greater.

## SCIENTIFIC ASSISTANCE

### Research Consultancy

- \* IAN Provide reliable professional services and support to Physicians, Doctors, Researchers, post-doctoral researchers for completion of their research work with professional guidance and academic support.
- \* IAN provides research consultancy and technical advice to researchers and academicians with a vast network of international experts from Neuroscience and Neurology.
- \* Deliver the highest quality of service and to seek innovative and creative approaches to problem solving
- \* Offering professional development activities, information and educational resources for graduates, research scholars and neuroscientists at all stages of their careers
- \* Providing regulatory information, schedules and compliance related inputs with expertise in research facility tie-up, continuing medical education and latest advances in the neuroscience field.

### **Institutional Assistance**

- \* IAN supports Universities/Institutions for organizing conferences, Meetings, Summits, Research Talks, Workshops by collaboration and support researchers to make their innovations and research work more efficient and effective.
- \* IAN renowned Professionals, Experts and Doctors working particularly in Neuroscience & Neurology will help the research scholars to make their research unique by providing more ideas with their experience and knowledge.
- \* IAN strengthen its mission of promoting professional education through the effective use of policy, information, advocacy, and programming.
- \* IAN devoted to publish original research articles and reviews in SCOPUS/SCI/ESCI/UGC/Web of Science Indexed Journals
- \* IAN encourages and supports the research scholars by appointing its members to provide necessary guidance to build and globalize their innovative ideas.
- \* Important catalyst for creative ideas and practical strategies for advancing neuroscience research & education to meet the requirements of students, employers, and society.

## **PROFESSIONAL ASSISTANCE OF IAN INCLUDES**

- \* Training Programs
- \* Research Consultancy
- \* R & D Assistance
- \* Education and Career Resources
- \* Career Development
- \* Providing Membership
- \* Young Doctors/Innovation Award
- \* Best Research Paper Award
- \* Career Development Award
- \* Research Professorship Award

## **JOURNALS AND PUBLICATIONS**

- \* IAN Publish research articles in the prominent open access Journals that promote and globalize innovation of researchers by publishing within the chronicles, journals and transactions of worldwide periodicals.
- \* IAN publications have shown marked growth in terms of global outreach, impact factors, downloads, citations, quick decision rates by the peer reviewers, number of submissions and stringent acceptance rates.

### *Publications in globally distributed high impact factor reputed International Journals:-*

- \* **SCOPUS Indexed Journals**
- \* **Springer**
- \* **ESCI**
- \* **Web of Science**
- \* **UGC Care**
- \* **Google Scholar Indexed**
- \* **ISI**
- \* **Editorial Board for swift peer-review and convenient Publication.**
- \* **Plagiarism, review reports, Increase Citations publish quality over quantity**
- \* **End-to-End Publication Assistance**

**Springer Scopus®**

## ACADEMIC RESEARCH COLLABORATION

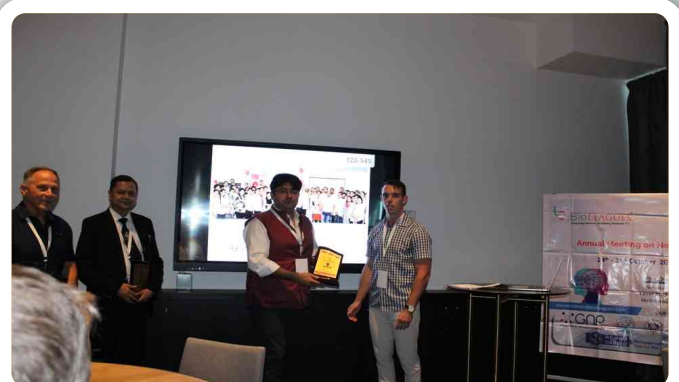

\* IAN is proud to have collaborated with several internationally recognized institutions, associations and organize International Conferences, Scientific events, R&D Assistance, Faculty Development Program, Workshops, Annual Meets and Student Chapters.

- \* The goal of IAN is to create a worldwide integrated scientific platform with well-connected resource of neurological research, physicians and scientists who strive to make a difference through careers that combine discovery, education, and clinical care.
- \* With our mission to make our academic services reach the top, we are sponsoring Universities/Institutions to organize conferences and scientific events by which researchers across the world could directly contribute towards advancing the goals of neuroscience & neurology to training and education.
